NEWS

NEW WEBSITE!

THENEIGHBOURNETWORK.CO.UK

WE HAVE LAUNCHED OUR NEW NAME!

Celebrate Families was unfortunately causing some confusion in terms of our relationship with Celebration Church, as well as single person households thinking that our support was not for them as they didn't consider themselves a 'family'. The new name - The Neighbour Network - aims ot include all households within our community and inspire everyone involved to live out the teachings that Jesus shared through the parable of the Good Samaritan, to "love your neighbour as yourself". This mission underpins everything that we aim to do in our community.

STUDENT PLACEMENTS COMPLETE!

We have had the pleasure of hosting two students from Heath Farm College for a work experience placement this term. They have gotten stuck into preparing our recipe boxes for local families, as well as making fresh soups and baked goods at our venue for our community spaces. They have learned how to work within a team of new people and take reponsibility for tasks they are delegated, which has really boosted their workplace confidence and skills. Jake and Ethan have been amazing additions to our team and settled in so well, we will really miss them!
